

FALLS SEVENTEEN FLOORS; CALMLY LIGHTS CIGAR.

Asks For Ambulance to Take Him to Hospital.

New York, March 4.—John B. Brunnon, a marble worker fell from the seventeenth floor of the Municipal Building to the bottom of an elevator shaft yesterday and treated his experience so lightly that those who ran to his aid found him lighting a cigar and casually inquiring if an ambulance could be summoned.

Much shorter falls have taken scores of lives in recent skyscraper buildings, but Brunnon was saved from being dashed to pieces because he landed on a bundle of empty bags.

He suffered fractures of the leg bones and a slight scalp wound but will recover.

America Third in Mountain Heights.

Since the discovery of Mount McKinley in Alaska, North America has ranked third among the continents in the matter of height of mountains. Asia has Mount Everest, of the Himalayas 29,002 feet above sea level, and South America has Mount Aconcagua, of the Andean system, 23,080 feet in height. North America comes next with Mount McKinley, 20,300 feet, and Africa is fourth, with Kibo Peak, 19,320 feet in height. Mount Blanc, Europe's highest mountain, is 15,782 feet in height, which is higher by more than a thousand feet than any mountain in the United States, exclusive of Alaska.

We are Exposed to Tubercular Germs

every day. Post-mortem examinations often show that tuberculosis had been arrested by strengthening the lungs before the germs gained mastery.

You can strengthen your resistance-power by taking **Scott's Emulsion**. It contains available energy in concentrated form, which quickly nourishes all the organs of the body. It repairs waste—makes rich, active blood and supplies energy to the starving cells. It's timely use enables the body to resist tuberculosis.

For stubborn colds and bronchitis nothing compares with **Scott's Emulsion**.

Congressman Fowler's Disgraceful Sanction.

We note with regret that our honored and illustrious congressman, together with seven other congressmen of whose standing we can judge by the position they took recently, voted against a law which had for its object the prevention of intermarriage between whites and blacks.

Our own congressman Fowler pointedly says by this act of his that he does not care if some common harlot, dazzled by the display of the wealth of some Ethiop., marries him and flaunts the shame of it in the face of every decent woman in the United States, white or black, an occurrence which has only recently transpired in the great state of Illinois; that he doesn't care for white degenerates taking to wife the dregs of the colored race, and thus propagating their own stock; that if this blight on civilization is checked it must be done over his protest, that he is not a debtor to common decency and not being charitably inclined he will lend it no aid.

Our Democratic friends have severely criticised Congressman Fowler, and we have hitherto held aloof, because we do not wish to join in a family row, but on this occasion we join with them in sweet accord. Give him h—ll.—Eldorado Journal.

Sahara Heat May be Used for Fuel.

London, March 11.—The utilization of the Sahara Desert as a heat producing center for industries is a suggestion made by Mr. J. Astley Cooper in a paper on Northern Nigeria read before the Royal Colonial Institute.

It has almost been accepted as a truism, he said, that our coal supplies are giving out, but the Sahara Desert receives an amount of solar heat every day equivalent to that produced by 6,000,000,000 tons of coal; and in this arid region, with great supplies of products available from the wonderful forest land nearer to the coast, and the country traversed by a network of railways, thoughtful scientific men say that if some economical method can be found to utilize this lost solar energy there is no reason why the factories of the future, factories enormous in extent, with glass chambers instead of chimneys, and alectors instead of furnaces all designed to receive and transmit the daily gift of the sun's heat should not be established there.

WILSON HONORED BY FINE PARADE

New President Reviews Immense Inaugural Procession.

AVENUE A GLORIOUS SIGHT

General Wood, Grand Marshal—Veterans, National Guard and Civilians in Line—Indiana Add Touch of Picturesque.

By EDWARD B. CLARK.

Washington, March 4.—Woodrow Wilson, as ex-president of Princeton, rode down Pennsylvania avenue to-day, and later rode up the same avenue as president of the United States, and as the highest officer of government a few minutes thereafter reviewed the multitudes of soldiers and civilians which, with playing bands and flying flags, marched by to give him proper official and personal honor.

For several nights Pennsylvania avenue has been a glory of light. Today it was a glory of color, movement and music. Here are 300,000 inhabitants of the city of Washington. Its temporary population is nearer the half million mark. The absentees from the flanking lines of the parade were mostly the policemen, who were given orders to protect the temporarily vacated residences of the capital.

Woodrow Wilson asked that "Jeffersonian simplicity" be observed in all things which had to do with his inauguration. The command for Jeffersonian simplicity seems to be susceptible to elastic construction. There was nothing savoring of courts or royalty, but there was evidence in plenty that the American people love uniforms and all kinds of display which can find a place within the limits of democratic definition. It was a good parade and a great occasion generally.

Through Vociferous With Joy. The inhibition of the inaugural ball and of the planned public reception at the capitol had no effect as a bar to the attendance at this ceremony of changing presidents. Masses were here to see, and other masses were here to march. There was a greater demonstration while the procession was passing than there was four years ago. Victory had come to a party which had known nothing like victory for a good many years. The joy of possession found expression in steady and abundantly noisy acclaim.

President Taft and President-elect Wilson were escorted down the avenue by the National Guard troop of cavalry of Essex county, New Jersey. The carriage in which rode Vice-President-elect Marshall and President pro tempore Bacon of the United States senate was surrounded by the members of the Black Horse troop of the Culver Military academy of Indiana. This is the first time in the history of inaugural ceremonies that a guard of honor has escorted a vice-president to the scene of his oath taking.

Escorting the President-Elect to White House at a Previous Inauguration.

America rode in this division. Their pink coats and their high hats apparently were not thought to jar "Jeffersonian simplicity" from its seat. Pink coats were worn on the hunting field in Jefferson's day and in Jefferson's state.

There were 1,000 Princeton students in the civic section of the parade. Many of them wore orange and black sweaters and they were somewhat noisy though perfectly proper. Students from seventeen other colleges and universities were among the marchers.

Spectators Cheer Constantly. All along Pennsylvania avenue, from the capitol to a point four blocks beyond the White House, the spectators were massed in lines ten deep. The cheering was constant and Woodrow Wilson cannot complain that the ceremonies attending his induction into office were not accompanied by apparently heartfelt acclaim of the people over whom he is to rule for at least four years.

Every window in every building on Pennsylvania avenue which is not occupied for office purposes was rented weeks ago for a good round sum of money. Every room overlooking the marching parade was taken by as many spectators as could find a vantage point from which to peer through the window panes. The roofs of the buildings were covered with persons willing to stand for hours in a March day to see the wonders of the inaugural parade, and many of them particularly glad of an opportunity to go home and to say that after many years waiting they had seen a Democratic president inaugurated.

The parade passed the reviewing stand of President Wilson, who stood uncovered while the marchers saluted. When the last organization had marched by dusk was coming down. The hundreds of thousands of electric lamps were lighted and Washington at night became along its main thoroughfare as bright as Washington at day. The loss of the attraction of the inaugural ball was compensated for by the finest display of fireworks, it is said, this city has ever known.

The procession was in divisions, with General Wood as the grand marshal of the whole affair and having a place at its head. The display, in the words invariably used on like occasions, was "impressive and brilliant."

DOVE OF PEACE.

Hovers Over Both Continents. Ottoman Empire Ready For Peace.

London, March 3.—The Turkish government today definitely abandoned its prohibitive stipulations in connection with peace and placed the Ottoman case unreservedly in the hands of the powers with the request to conclude peace as advantageously as possible for Turkey.

Unless, as has happened heretofore, Turkey changes its attitude, it is believed that direct peace negotiations will be resumed rapidly.

REBEL LEADERS READY TO LAY DOWN ARMS.

El Paso, Tex. March 3.—General Pascual Orozco, Jr., commander of the northern revolution, declared today that he desired to arrange peace with the Huerta government by negotiations. He sent a representative to Mexico City, and is now awaiting drawing up of the terms.

The Forty Year Test.

An article must have exceptional merit to survive for a period of forty years. Chamberlain's Cough Remedy was first offered to the public in 1872. From a small beginning it has grown in favor and popularity until it has attained a world wide reputation. You will find nothing better for a cough or cold. Try it and you will understand why it is a favorite after a period of more than forty years. It not only gives relief—it cures. For sale by all dealers. *m

Why Adventure Knocks So Rarely.

David Grayson, writing a new "Adventure in Contentment" in the March American Magazine, says:

"It is because we are not humble enough in the presence of the divine daily fact that adventure knocks so rarely at our door. A thousand times I have had to learn this truth (what lesson so hard to learn as the lesson of humility!), and I suppose I shall have to learn it a thousand times more. This very day, straining my eyes to see the distant wonders of the mountains, I nearly missed a miracle by the road-side."

Chronic Stomach Trouble Cured.

There is nothing more discouraging than a chronic disorder of the stomach. Is it not surprising that many suffer for years with such an ailment when a permanent cure is within their reach and may be had for a trifle? "About one year ago," says P. H. Beck, of Wakelee, Mich., "I bought a package of Chamberlain's Tablets, and since using them I have felt perfectly well. I had previously used any number of different medicines, but none of them were of any lasting benefit." For sale by all dealers. *m

"Pittsburgh Perfect" Fence

Why we use Open Hearth Wire in Preference to all other kinds

Remember the iron wire your father and your grandfather had around the farm? Good old wire, wasn't it?

The Special Open Hearth Wire, as we make it today from our own (secret) formula, is more like the old time iron wire than that used in any other make of fence.

Made in Different Styles for FIELD, FARM, RANCH, LAWN, CHICKEN, POULTRY and RABBIT YARD and GARDEN

Ask your dealer for "Pittsburgh Perfect" and insist on his furnishing it. Do not allow him to persuade you that some other fence is just as good. If he doesn't sell it, write us direct.

It takes longer to make this special Open Hearth Wire, but it excels in strength, toughness and long life, and consequently makes the most serviceable, satisfactory fence. The wire is the very foundation of fence durability.
